Please join us for the First Street and Second Street Two-Way Traffic Conversion Project Public Meeting. The meeting will begin with a presentation on planned safety and multi-modal connectivity improvements for the First Street and Second Street Two-Way Traffic Conversion Project. Participants will learn about benefits of two-way traffic, residential neighborhood considerations, expected timing of the conversion and view renderings of the proposed improvements.

A Question and Answer (Q&A) session will follow the presentation. The goal is to create a safer and more user-centric pattern for all multimodal transportation. For more information, please visit www.FirstAndSecondImprovements.com.
