

# First Street and Second Street Two-Way Traffic Conversion Project Update

November 23, 2021

[www.CFM2way.com](http://www.CFM2way.com)

Updated information will be  
shown in orange

## Construction Update

Beginning summer 2021, contractors for the City of Fort Myers will start Phase I construction of the First Street and Second Street Two-Way Traffic Conversion Project. Phase I will convert First, Second and Seaboard streets from one-way to two-way traffic to produce positive safety benefits quickly & efficiently. Work is expected to occur Monday through Friday from 7 a.m. to 7 p.m.; however, some night and weekend work may be necessary. This project is expected to be completed in summer 2022.

Crews are currently installing drill shafts for the the future traffic signal mast arms at varying intersections.

### Palm Beach Boulevard and Seaboard Street intersection

- Motorists should expect the inside westbound lane to **remain closed** from Seaboard Street to E. Riverside Drive. **Once the traffic converts to two-way traffic, this lane will be the left turn lane onto Seaboard Street.**

### First Street

- Motorists should expect lane closures from Fowler Street to Cranford Avenue through the end of **December**.
- Sidewalk on the southeast corner of the following intersections are closed:
  - First Street and Park Avenue
  - First Street and Fowler Street

### Second Street

Motorists should expect lane closures from Fowler Street to Palm Avenue through the end of **December**.

For more complete project information, view a video of the new traffic movements planned, or to sign-up for construction updates, please visit [www.CFM2way.com](http://www.CFM2way.com) or contact the City's public information consultant for the project at 239-337-1071 or 877-496-1076 (toll free) or email at [info@CFM2way.com](mailto:info@CFM2way.com).
